Checks of unsuccessful bidders will be returned upon the award of the bonds.

The successful bidder will be furnished with the opinion of Messrs. Reed, Hoyt & Washburn, of New York City, that the bonds are valid and binding obligations of the City of Jersey City. Whereas, the Hudson and Manhattan Railroad Company has decided beginning September 1, 1937, to increase the passenger fares on the trains of said Company from points in Jersey City and Hoboken to Hudson Terminal Station, Cortland Street, New York, from the present fare of six cents to the fare of ten cents; and

Whereas, this increase is unfair, discriminatory and without any justification either in law or in fact and, will work great injustice and hardship to the citizens of Jersey City, thousands of whom use the services of this Company daily to Downtown New York and impose upon them a financial burden which they cannot afford to pay;

Therefore, Be It Resolved, that the Law Department of this City be, and it is, hereby instructed to take all means possible by proceedings before the Interstate Commerce Commission, or before any other Board, body or tribunal and otherwise to do all things within its power to prevent the said Company from putting into effect the said increase in fares; and

Be It Further Resolved, that the Mayor of this City address a communication to the Mayors or Chief Executives of all the other Municipalities whose citizens will be affected by this increase, requesting said Mayors or Chief Executives to assemble in conference at the office of the Mayor of this City at ten o'clock (Daylight Saving Time) on the morning of Friday, August 6, 1937, for the purpose of devising ways and means for concerted action to prevent the said Company from putting into effect the said contemplated increase in fares.

Following the adoption of the foregoing resolution, the Mayor stated that this resolution was the result of a conference held yesterday with Mr. Hamill and Mr. Herschenstein of the Law Department at which time the Corporation Counsel was directed to prepare the necessary letters to be forwarded in reply to the letter the Mayor had received calling the attention of the Commission to the raise in fare and at which time the Corporation Counsel was also directed to prepare letters to be forwarded to Congressmen Norton and Hart and Senators Moore and Smathers. The Mayor stated that a proper case must be prepared and that the executive heads of the various municipalities should unite (except the municipalities of East Newark, Harrison and Kearney); that for this reason the resolution embodied the invitation to the Chief Executives of the various municipalities affected by this raise to meet in conference at his office on Friday morning, August 6, 1937.

The Mayor then directed the City Clerk to read the Mayor's communications forwarded to Mr. Brown of the Hudson & Manhattan R. R. Co., and to the Congressmen and Senators, in which he strenuously protested against the proposed increase in fares.

In conclusion the Corporation Counsel advised that in compliance with the Mayor's order he will carry out the resolution in all directions.

At this time Mr. Louis Clarke appeared with a delegation representing the Down Town Business Men's group and requested the assistance of the Mayor and Commissioners in sponsoring the proposed slum clearance bill which is now pending before Congress and which bill they feel will pass very shortly; Mr. Clarke stated that the business men feel that it is a necessity for Jersey City because it will improve living conditions and such a project will be a tremendous stimulus to business. He presented facts concerning a similar project in Atlantic City where surrounding property was enhanced in value.

The matter of requesting the Hudson & Manhattan R. R. Co. to install an escalator at the Grove St. Station was also urged by the business men.

The Mayor stated that he has no hesitancy in committing himself to the escalator project but he would prefer to wait for that until the fare raise situation was taken care of. He also stated that in reference to the slum clearance program, he discussed with Mr. Davis a very important situation which is very disturbing to the Mayor and Commissioners, the fact that there are four or five thousand vacancies in the entire city; that while the matter of slum clearance is being discussed to affect a certain section, other sections have a lot of property containing many vacancies and the owner is property poor and unable to make improvements because of lack of money and bank credit; that the property cannot be fitted for occupancy and is depreciating; that if slum clearance is undertaken and five or ten million dollars is spent to improve one section of our city, if three hundred families occupy the new premises, it means that there will be three hundred additional vacancies in the vacated premises; that the question is, what will become of those properties where the vacancies occur; that while he is in favor of the slum clearance program in his endeavor to help Jersey City, the other property owners must be considered and encouraged; that about a year and a half ago, the government sent a representative to see him on this subject and he then took up with the government representative the question of what is to become of the property owner who owns property scattered throughout the city who have no means to make the necessary improvements and have their entire life's savings invested and the property is not earning a dollar; that he again met this government representative at the inauguration in Washington and he informed him that the government is beginning to consider the matter along the lines as suggested by the Mayor and that he does not think he would have much trouble getting money for the improvement of such property.

The Mayor stated that while he is Mayor these poor people are not going to be pushed around; that the banks will not extend any credit to the property owner and help save this property for which they have struggled; that while he is in sympathy with the proposed project, he will not neglect the other property owners; that he will go any distance to help this slum clearance program, but we must not forget the others who will be doomed as soon as the clearance goes into effect.

In conclusion the Mayor asked the delegation to prepare their program and advise him and the Commissioners when they are ready and they can count on the support of the Commissioners of Jersey City to help this project and the other owners of the property who will be affected.

The delegation thanked the Mayor and Commissioners for their cooperation and stated that they will also cooperate with the Mayor on the suggestion he outlined.

At this time Mr. David Nimmo appeared before the Board with a delegation of American Legion representatives. He stated that they represented the Jersey City American Legion National Convention Committee; that the national convention will be held in New York City the week of September 20th this year; that the cities and states bordering New York have appointed committees to cooperate in making a success of the convention; that they are here today seeking the cooperation of the City of Jersey City in welcoming the legionnaires from all over the country who will be here that week; that there will be more representatives at this convention than in past years and in addition to other details it will require a police problem; that the legionaires from Colorado have expressed their wish to present to Mayor Hague a genuine Colorado burro; that the National Commander has been induced to come to Jersey City notwithstanding the fact that there will be a great demand on his time and they would like a fitting welcome extended to him at that time; that there are a great many problems to be met and they can only be met through the cooperation of the City Commission with their committee; that Mr. Ehrhardt is chairman of this committee.

Commissioner Potterton advised the Committee that Mr. Ehrhardt was referred to him by the Mayor's office and in his opinion sufficient assurance has been given that the Commission will go along with him; that all the Commission wants is the dates and other details involved and there will be no friction and all details will be worked out.

The Committee then extended it's thanks to the Commission for their cooperation.

Be it Resolved by the Board of Commissioners of the City of Jersey City that the City Comptroller be and he hereby is authorized to issue new coupen bonds of the same form and tenor in exchange for the outstanding $20,000 School Bonds of the City of Jersey City, dated October 1, 1930, bearing interest at the rate of four and one-quarter per centum (4¼%) per annum, payable semi-annually on April 1st and October 1st, and consisting of twenty bonds of the denomination of $1,000 each, numbered from 576 to 595, inclusive, and maturing on October 1, 1950, issued on or about their date pursuant to an ordinance adopted by the Board of Commissioners of said City on the 16th day of September, 1930.

Whereas, the City of Jersey City has always desired a splendid baseball club which, besides affording pleasure and recreation to its citizens, would bring distinction to the city; and

Whereas, the Mayor and members of this Commission did, after most diligent and industrious effort, succeed in inducing the management of the New York Giants to purchase a franchise in the International Baseball League for this team to represent Jersey City; and

Whereas, notwithstanding the fact that the granting of the franchise was delayed and many other difficulties were encountered by the team and its management, it has, nevertheless, by its ball playing under the magnificent leadership of Travis Jackson, brought credit upon itself and fame to Jersey City and its citizens; now, therefore, as a mark of our appreciation of the work accomplished by the team, be it

Resolved, that Sunday, September 12, 1937, be and the same is hereby designated and proclaimed to be known as Jackson Day, in honor of the said manager, Travis Jackson, and all citizens are called upon fittingly to celebrate and encourage the work done by the team under the leadership of the said Travis Jackson; and be it

Further resolved, that the people of Jersey City, through the Mayor and Board of Commissioners, extend to Travis Jackson, their sincere thanks and appreciation for his untiring efforts and the great results he has achieved, and express the confident hope that he will, on his return to Jersey City next season, lead his team to even greater and more splendid accomplishments.

Before calling the roll on the foregoing resolution, the Mayor made the following statement:

"The purpose of this resolution and the Jackson Day is because of the desire of the people of our city to have a real baseball team and club. Because of the drafting season having passed prior to the purchase of this franchise, it was impossible to obtain the type of players and the necessary players that go to make a championship club. They were compelled to go to the major leagues for assistance, and the result was that they were unable to secure the needed players. I have confidence in the Jersey Giants and what the future holds for them. I think it would be an error on the part of city officials to overlook this opportunity, the last game being next Sunday, without recognition and to extend their encouragement and say to the management that the people of our city are desirous of encouraging the manager and the club and the owners of the club, so that next season we will have a baseball club that will be in there fighting in the front lines for leadership of the league. The purpose of the Jackson Day is no other than to encourage the management and the manager to carry on, and that the spirit that will be displayed by the presence of the citizens of Jersey City on next Sunday to encourage Manager Jackson will be a stimulant and he will return to us next season with plenty of confidence. Therefore I am looking forward to a ready response and a great turnout to bring about the success of this affair."

The Mayor then directed the City Clerk to call the roll on the foregoing resolution.

The roll being called, the resolution was adopted by the following vote:

This change entailed an extra cost of $130. It did not affect the contractor's time of completion.

The bonds will bear interest at a rate which will not exceed four per centum (4%) per annum. In bidding for the bonds, bidders must consider the bonds as constituting a single issue of bonds. Bidders are invited to name the rate of interest which the bonds are to bear. The rate named must be a multiple of one-quarter or one-tenth of one per centum per annum, and must be the same for all the bonds bid for. No proposals will be considered naming a higher rate than the lowest rate named in any legally acceptable proposal received by the City Comptroller. If two or more proposals name the lowest interest rate, the bonds will be sold to the bidder offering to pay the sum of $1,480,000, and to accept therefor the least amount of bonds, the bonds to be accepted being those first maturing, and if two or more of such bidders offer to accept the same least amount of bonds, the proposal of the bidder offering to pay therefor the highest additional price will be accepted. The price for which the bonds may be sold cannot exceed $1,481,000.

Bidders, in submitting their bids, must use the bidding forms which will be furnished by the undersigned upon request. The right is reserved to reject bid, the purchaser must pay accrued interest from the date of the bonds to the date of payment of the purchase price. any or all bids. In addition to the price

Proposals should be addressed to the City Comptroller, City Hall, Jersey City, New Jersey, and enclosed in a sealed envelope marked on the outside, "Proposal for Bonds," and must be accompanied by a certified or cashier's or treasurer's check for $29,600, drawn upon a bank or trust company, for such amount, to the order of the City of Jersey City, to secure the City from any loss resulting from a failure of the bidder to comply wth the terms of his bid. Checks of unsuccessful bidders will be returned upon the award of the bonds.

The successful bidder will be furnished with the opinion of Messrs. Reed, Hoyt & Washburn, of New York City, that the bonds are valid and binding obligations of the City of Jersey City. The bonds will be prepared under the supervision of The Trust Company of New Jersey, which will certify as to the genuineness of the signatures of the officials and the seal impressed on the bonds.

CITY ORDINANCE

This time and place having been fixed by the Board of Commissioners and public notice advertised as required by law for the purpose of considering the final passage of the following ordinance:

"An ordinance to limit the number of plenary retail consumption licenses and plenary retail distribution licenses to sell alcoholic beverages at retail in the City of Jersey City."

The City Clerk read the public notice and the ordinance and then called for anyone who might desire to be heard concerning the adoption or rejection of the ordinance.

Michael J. McGrath of 335 Montgomery Street, Jersey City, N. J., appeared and stated that he was against the ordinance.

By Mr. McGrath:

I am a property owner and citizen. I don't think any group of men should get control of the city and hold the property down for their own advantage. I am a big property owner and have lots of stores and I don't see why I should be tied down by a group of men. I hope you consider this for the good of the city.

By the Mayor:

Of course, you are one objector. You have been a saloonkeeper all your life?

A. Yes sir. We never had no restrictions before in Jersey City. It will not do any good to real estate men or property owners.

By the Mayor:

Their only theory is that they are going to benefit the industry. You know particularly well that you cannot have one thousand saloons in Jersey City when there is only need for three hundred. You are going to have men resorting to violations of the law and all types of unlawful practices. What is your objection Mr. McGrath?

A. I think every man is entitled to make a living.

Q. Are you in this business now?

A. I am in the real estate business.

Q. What prompted you to object here?

A. I have stores and I could rent them. If they are empty I must have police protection and have windows barred up.

Q. Your objection is from a real estate view and not from the liquor view?

A. Yes sir. I don't think it will benefit the City very much.

Counsellor Samuel Moskowitz representing Hudson and Bergen County Liquor Dealers, appeared with a large delegation representing the association.

By Mr. Moskowitz:

We are for the ordinance. In the past we have tried to cooperate with the Commissioners. I don't think I need to talk at length on the matter. The ordinance is a step in the right direction. Jersey City has a population of 328,000. We have approximately 728 licenses, one license to each 400 people, men, women and children. Forty percent of the population are under twenty-one and not customers of ours. Then you have a condition where there is a license for every 240 men, women and children over twenty-one. That is, assuming all of these 240 are drinking people. It seems to me that limitation is certainly a good thing both for the city and the members of the trade. The revenue derived from the trade should not be paramount to the best interests of the people. There is no denying that the State is overcrowded and if something is not done the mortality rate will be increased. (He then read several editorials on the subject.) The temptation to depart from the legitimate manner of doing business is too great. Limitation is a benefit, good for the community and the dealers. (Read a list of cities who have adopted limitation of licenses.) Newark has also started preparing regulations and ordinances to restrict areas and is not issuing any consumption licenses now.

By the Mayor:

Mr. McGrath, in regard to your property, we say this man has a piece of property that is desirable—under the transfer clause, can a man transfer the license?

By Mr. Moskowitz:

Provided he complies with the 750-foot regulation.

Q. But the Board must consent?

A. We are agreeable to leave that in your hands.

Q. The only thing I want cleared up in the minds of everybody. The only weakness I can see is this. Where some occupant of some premises may have some dispute with the landlord and if because of some dispute that is unreasonable or unfair he attempts to take advantage of the tenant. We are going to be very strict on that and we will be the safeguards of that.

By Mr. McGrath:

I have a place of business and we cannot get a license for it.

By the Mayor:

For two years you had an opportunity to get that license. I talked with Commissioner Casey about the matter. Why did you not make application then? We opened the doors to everybody. We granted everyone with few exceptions where the record demanded a denial. This new ordinance is not snap judgment. This is the result of two years of serious consideration. If you failed to make application, you must not blame these men. Mr. Moskowitz, is there no chance for this man to get a license? I have known him for over forty years. There has never been a complaint against him of any kind.

By Mr. Moskowitz:

The way this ordinance is framed there is no chance for this man to get a license unless it is transferred there. If we were to let down on this, it would open the door for all the others.

By the Mayor:

I don't like to see Mr. McGrath suffer any hardships, but I say for two years you failed to take advantage of the privileges that the Commission allowed everybody. We anticipated that everybody who wanted a liquor license made application. When this suggestion came from the liquor dealers, we figured we were not harming anybody. We figured the limit was reached and every property that was to be used for a saloon purpose was in. We did not intend to pass this ordinance to injure anybody. It was only to help the trade and the overcrowding that would result in unlawful practices.

By Mr. McGrath:

I think that the people will leave the City and go to other cities to start business.

By Counsellor Eagan:

Counsellor Paladeau paid particular attention to Section 6 of the ordinance just to protect the property owner where a license is transferred or revoked.

At this time Mr. Ralph J. Knapp, of 361 Jackson Avenue, appeared before the Board and stated that he conducts a store at that location and holds a lease that will be up next year and that the owners are going to take possession; that he is trying to buy some property, but the location would be against the distance allowed by the ordinance, with the result that he would be out of business.

The Mayor stated that it is a serious question, and if you attempt to revise the ordinance you are going to throw the ordinance out.

Mr. Knapp stated that he has spent many years building up his business, and every place he has opened is bigger and better; that his business is just as important to him as it is to the people favoring the adoption of the ordinance; that while he believes in limitation, he believes he has as much right to a livelihood as they have; that he is not asking for anything special, but he wants to be protected.

The Mayor stated that they are here to protect him; that these men worked the matter out, and they must protect Mr. Knapp.

Counsellor Egan stated that the lease does not expire for one year, and that allows one year's time to work it out; that the ordinance must be based on whether or not it is going to be a benefit to the people of Jersey City in general.

The Mayor stated that there will be some question raised and we have got to get around it, so that we must protect the people in such cases. He has his investment there, and if he is an innocent victim, we must protect him; that where we get a condition like this, we must help, but the one involved must also help.

By the Mayor:

You will find that we will go further than half-way. When you find that your difficulty is arriving when you want to confer with these men, I think it is your duty to request these men to confer with you. When we meet it, we will try and adjust it.

At this time Mr. Gustave Fricke appeared before the Board and expressed the thanks and appreciation of the tavern owners for the cooperation extended by the Commission.

By the Mayor:

We are going to adopt this ordinance. You men understand our thought on the conduct of saloons and taverns in this city. We have not neglected anything as to the decency that must prevail at all times. You must never forget, and I know that you would not forget that. We are insistent that all taverns must be conducted along proper lines. The people of our city are accustomed to that. They know that it is the byword of this administration, and I ask these men to help in continuing. I know, also, that we will not encourage the harboring of women or any other condition that will hurt this trade. I am proud of this ordinance and what it will accomplish, and I think it should be done all over the State. I want everybody to know that my association with Mr. Fricke, like Mr. McGrath, goes back many years. To my knowledge, I don't think this man ever violated the law in all the years has was in business. I am proud to think that he is the man with whom we are dealing, and I am glad to pay this compliment to him.

Mr. Fricke thanked the Mayor for the sentiment expressed, and that he knows that any time the Commission desires the cooperation of his association they will be glad to come down and offer any cooperation for the betterment of the trade; and, further, his association is proud of this city.

By Mayor Hague:

Resolved, that the hearing on the final passage of the foregoing ordinance do now close.

Resolved, That the following ordinance do now pass:

PUBLIC NOTICE

An ordinance to vacate as a public street "all that portion of 15th Street, as shown on the Official Assesement Map of Jersey City, made by L. D. Fowler, 1894, as lies between the westerly line of Coles Street and the easterly line of Monmouth Street, the same being 400 feet in length and 60 feet in width throughout."

Whereas, the following described premises have been dedicated for some time past as a public thoroughfare in the City of Jersey City; and

Whereas, the aforesaid property is no longer necessary as a public thoroughfare and the public interests would be better served by releasing said lands from such dedication;

Now, therefore, be it ordained by the Board of Commissioners of the City of Jersey City,—

Section 1.—That "All that portion of 15th Street, as shown on the Official Assessment Map of Jersey City, made by L. D. Fowler, 1894, as lies between the westerly line of Coles Street and the easterly line of Monmouth Street, the same being 400 feet in length and 60 feet in width throughout," is hereby vacated and the public rights and duties arising from the dedication of the foregoing described property as a public street, are hereby released and extinguished.

Section 2.—This ordinance shall take effect immediately and in the manner provided by law.

Section .—All the costs and expenses incident to the introduction, passage and publication of this ordinance, shall be paid by the applicants.

Reserving and retaining, however, in the City of Jersey City, the right to maintain the sewer running through Fifteenth Street in its present location, with the right of access thereto by the city, and with the easement of repairing, rebuilding and maintaining said sewer in its present location in said street until such time as the owners of the abutting property shall notify the City of Jersey City, in writing, to relocate said sewer in 16th Street from Monmouth Street to Coles Street, and in

Coles Street to 15th Street, when the said City of Jersey City shall be required to relocate the said sewer as aforesaid, and any and all rights, easements or privileges of the City of Jersey City, or of the public in the said lands hereby vacated shall thereupon wholly cease and determine, and in the event of its relocation at the request of the abutting owner, in consideration of the mutual benefits and advantages to the City of Jersey City, and the abutting owner, the said abutting owner shall pay to the City of Jersey City the sum of $10,000.00, and no more, toward the expense of relocating said sewer regardless of the actual cost thereof. Said $10,000.00 shall be paid by the abutting owner to the City of Jersey City within ninety (90) days from the date of notice in writing to the City to the effect that the abutting owner desires the said sewer relocated, or ninety (90) days from the date the City so advises the abutting owner that it intends to relocate said sewer. The City of Jersey City shall commence relocating said sewer within ninety (90) days from the date notice of said relocation shall be sent to the City of Jersey City by the abutting owner or within ninety (90) days from the time the said City of Jersey City advises the abutting owner that it intends to relocate said sewer, and the said City of Jersey City shall proceed with the said relocation with reasonable diligence and without interruption unti the same is completed.

It is also agreed that while the sewer remains in the vacated portion of 15th Street, the abutting owner will be limited to a one-story structure over said sewer; however, if said sewer is relocated or is abandoned, the abutting owner will have the right to construct a building of any size consistent with the Building Code of the City of Jersey City.

As a condition precedent to the taking effect of the ordinance, the owner of the abutting property shall cause to be installed, at its expense, a six-inch connection to the present twelve-inch water main in 15th Street at the intersection of Coles Street, together with necessary meter and meter vault, in accordance with plan to be approved by the Director of the Department of Public Works.

Yeas: Commissioners Casey, Fagen, McGovern, Potterton and Mayor Hague.

At this time Mr. Charles Wolfe and Mr. Joseph Ray appeared before the Board. Mr. Ray stated that they represented the Fourth Regiment Veterans Association; that they are concerned about the war memorial for the Fourth Regiment Veterans Association; that they are cooperating in conjunction with the Gold Star Mothers; that when the old Fourth Regiment Armory burned down they secured 400 stones for the construction of a memorial arch; that they are now at Pershing Field, and the association would like to have them used for the arch; that there is a fund accumulated and Commissioner McGovern has the data; that they desired to have the arch put up in Lincoln Park, but the Commissioners felt that the brown stones are not suitable because of the white stones at the park; that he went overseas with the Fourth Regiment organization, and a great many of the members are now buried in France; that the members are anxious to have this arch up in the County Park.

Commissioner McGovern stated that this matter was presented to him some time ago and, while no action was taken over what might seem a long period, he would prevail upon the committee to mark time a little while longer to see if something cannot be done to carry out the wishes of the veterans; that they can rest assured that if we are not successful in securing a place in the Country Park, the Mayor will see that a suitable location is secured.

The committee thanked the Commission for the kind cooperation extended.

CITY ORDINANCE

This time and place having been fixed by the Board of Commissioners and public notice advertised as required by law for the purpose of considering the final passage of the following ordinance: "An Ordinance creating the Housing Authority of the City of Jersey City, New Jersey," the City Clerk read the public notice and the ordinance and then called for anyone who might desire to protest against the final passage of said ordinance. No one appeared to protest and no written protests were received.

Mr. Joseph E. Connelly, of 2285 Boulevard, Jersey City, appeared before the Board and read a resolution adopted by the Low Rent Housing Association, several labor organizations, veterans' organizations, endorsing the creation of the Housing Authority. He stated that it is a move for the best interests of the people and the city in general.

By Mayor Hague:

Resolved, That the hearing on the final passage of the foregoing ordinance do now close.

The roll being called the resolution was adopted by the following vote:

Yeas: Commissioners Casey, McGovern and Mayor Hague.

Nays: None.

By Mayor Hague:

Resolved, That the following ordinance do now pass: An ordinance creating the Housing Authority of the City of Jersey City, New Jersey.

Whereas, There exist in the City of Jersey City, insanitary or unsafe dwelling accommodations and persons of low income are forced to reside in such insanitary or unsafe accommodations; and in the City of Jersey City there is a shortage of safe or sanitary dwelling accommodations available at rents which persons of low income can afford and such persons are forced to occupy overcrowded and congested dwelling accommodations, and the aforesaid conditions cause an increase in and spread of disease and crime and constitute a menace to the health, safety, morals and welfare of the residents of the City of Jersey City and impair economic values, and those conditions necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health and safety, fire and accident protection, and other public services and facilities, and

Whereas, These areas in the City of Jersey City cannot be cleared, nor can the shortage of safe and sanitary dwellings for persons of low income be relieved, through the operation of private enterprise, and the construction of housing projects for persons of low income (as defined in the Local Housing Authorities Law) would therefore not be competitive with private enterprise, and

Whereas, The clearance, replanning and reconstruction of the areas in which insanitary or unsafe housing conditions exist and the providing of safe and sanitary dwelling accommodations by any public body for persons of low income are public uses and purposes for which public money may be spent and private property acquired and are governmental functions, and

Whereas, It is in the public interest that work on projects for such purposes be commenced as soon as possible in order to relieve unemployment; now therefore

The Board of Commissioners of the City of Jersey City, New Jersey, do ordain:

Section 1.—Pursuant to the provisions of the "Local Housing Authorities Law" of the State of New Jersey, a body corporate and politic to be known as the "Housing Authority of the City of Jersey City" be, and the same hereby is created and established.

Section 2.—The Clerk be, and he hereby is, authorized and directed to file a certified copy of this ordinance with the executive officer of the State Housing Authority.

Section 3.—This ordinance shall take effect immediately, upon final passage and publication according to law.

The City Clerk read the foregoing ordinance as ready for final passage.

The roll being called the ordinance was passed by the following vote.

Yeas: Commissioners Casey, McGovern and Mayor Hague.

Nays: None.

MEETING OF MAY 31, 1938

Minutes of a Special Meeting of the Board of Commissioners of Jersey City, N. J., held in the Office of the Mayor, City Hall, Jersey City, N. J., on Tuesday, May 31, 1938, at 10:30 o'clock A. M. Daylight Saving Time.

Present: Commissioners Casey, McGovern and Mayor Hague.

Absent: Commissioners Fagen and Potterton (excused).

The City Clerk read the following call for the special meeting:

"OFFICE OF THE MAYOR

"May 28, 1938.

"The Honorable Eugene Ertle,
"City Clerk,

"Dear Mr. Ertle:

"Please arrange for a special meeting of the Board of Commissioners at the Mayor's Office, 10:30 A. M., Tuesday, May 31, for the purpose of discussing estimates received May 17 for remodeling Unit "C" of the Medical Center, and other matters.

"Very truly yours,

"(s) FRANK HAGUE,
"Mayor."

The City Clerk then read the following notice sent to each member of the Board of Commissioners:

"OFFICE OF THE CITY CLERK,

"May 28, 1938.

"Dear Sir:

"This is to advise you that the Mayor has called a special meeting of the Board of Commissioners for Tuesday morning, May 31, 1938, at 10:30 o'clock in the office of the Mayor, City Hall.

"Kindly arrange to be present.

"Yours very truly,

"(s) EUGENE ERTLE,
"City Clerk."

The Mayor directed the City Clerk to call the roll.

Following roll call the Mayor declared the meeting open and directed the City Clerk to proceed with the matters before the Board.

In attendance at the meeting were the following: Mr. John T. Rowland, Architect; Dr. George O'Hanlon, Medical Director; Mr. P. B. West, R. E. I. Chief, P. W. A.; Edward Laursen, Clerk of the Works; Mr. A. A. Jones, Engineer-in-Charge, and Mr. Richard Resler, Architect-in-Charge.

Mr. Rowland reported to the Board that he had tabulated and examined the bids received on May 17, 1938, for remodeling Unit "C," found them all formal and that the total amount of the lowest bid received was $1,303,118.00, that this total represented a greater cubic foot cost than any of our new buildings at the Medical Center; that the increased cost was unquestionably due to the tearing out and rebuilding of so many parts of the building. He stated that the heating and ventilating, the plumbing and the electrical work, was specified to be entirely new and that the cost of working same into the old building was in excess of the value of new work. Further that it would still be an old building after reconstruction and it would not be of steel construction like all the others, but rather a wall bearing job; that as so much work had to be done reinforcing and strengthening with steel, removing old elevators, building new shafts, etc., and as so little of the old building would remain, it would be much beter and more economical to erect a new building which would more completely meet the needs of the institution.

The Mayor asked the architect, Mr. Rowland, if in his opinion it would be more economical to construct a new building than to tear out and remodel the old building. Mr. Rowland replied that a larger and better building could be constructed for the same amount of money and that in view of the high cost of remodeling it would be better to again study all of the needs of the institution and make such changes as would insure a lower final cost for all work involved.

The Mayor then asked if it would give more hours of employment if new construction were considered and Mr. Rowland replied that a new building would afford as many if not more hours of work, both direct and indirect, including skilled and unskilled labor.

The Mayor then asked if any of the Government officials would like to make a statement.

Mr. West stated that he agreed with Mr. Rowland that it would be less expensive to erect a new building of like cubic contents.

Mr. Jones, Engineer-in-Charge, stated that in his opinion it was the extreme difficulty of the work and the necessity of keeping the institution in operation that so advanced the cost, and that it would be far better to abandon the building, shift or change all services and construct a new building.

Mr. Resler, Architect-in-Charge, indicated that better services could be arranged in a new building than by trying to make them fit or accommodate themselves in the old building.

The Mayor then asked all present if it would not be best to erect a new institution, and the unanimous sense of the meeting was that it was the proper thing to do.

The Mayor then stated that the Board of Commissioners had the authority and right to reject the bids of May 17, 1938, so that the record would be clear in that respect, and thereupon the Mayor directed the Corporation Counsel, Mr. James Hamill, to prepare the necessary resolution to reject the bids received on May 17, 1938, and to authorize the architect to prepare an amendatory application to P. W. A. Docket N. J. 1075-R, which would contemplate the demolition of Unit "C" and the construction of a new Unit "C" building.

Mr. Hamill presented the following resolution and the Mayor moved its adoption. Seconded by Commissioner McGovern and carried.

By Mayor Hague:

Whereas, on May 17, 1938, bids were received by the Board of Commissioners of the City of Jersey City for the remodeling of the present hospital buildings Unit C, alterations, additions and improvements to the Medical Center, Jersey City, N. J., P.W.A. Docket N. J. 1075-R; and

Whereas, upon investigation and consideration, it was found and determined that the cost per cubic foot for said remodeling is greatly in excess of the cost of the new buildings recently erected under this project and that it would be less expensive and more advisable to erect a new building on the site now occupied by Unit C, to serve the purpose of Unit C, and also other purposes with greater and more improved facilities;

Now, therefore be it resolved, That the bids herein referred to, received on May 17, 1938, be and the same are hereby rejected and that the architect of the project be and he is hereby authorized and directed to file with the P.W.A. an amendatory application which will contemplate, in lieu of the remodeling of the present Unit C, the demolition of that unit and the erection and construction of a new building as aforesaid, to be known as Unit C of the Medical Center of Jersey City.

Adopted.
